DETAILED ACTION

1. This action is responsive to communications: Amendment, filed on 7/1/2005.

This action is final.

2. Claims 1-6, 14-19, 25-31 and 37-51 are pending in this application. Claims 1, 3 and 43-53 are independent claims. In the Amendment, filed on 7/1/2005, claims 1, 3, 43, 45-46, 48-49 and 51-53 were amended, and claim 13 was canceled.

3. This application claims foreign priority dated 11/10/2000.

4. The present title of the invention is "Image display control unit, image display control method, image displaying apparatus, and image display control program recorded computer-readable recording medium" as filed originally.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 1 recites the limitation "'a display control section confirming whether said image is stored in said first storing section when said image is to be displayed on said display screen and display, if the result of combining is negative, said image at the image magnification ratio, which has been stored in said first storing section, on said display screen, and obtaining, if the result of the confirming is positive, the display position information from the first storing section and displaying the location of the image as indicated by the display position information at the image magnification ratio on said display screen" in lines 14-20. There is insufficient antecedent basis for this limitation in the claim.

Examiner reviewed the section indicated by the applicant (page 52-53 of specification) and found no teaching lead to the limitations claimed.

Since claims 3, 43, 45, 46, 48, 49 and 51-53 were amended with similar limitations, they are rejected with the same reasons.

The dependent claims are rejected because they include the limitations of rejected independent claims.

Inquiries

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan R Yang whose telephone number is (571) 272-7666. The examiner can normally be reached on M-F 8:30AM-5:00PM.
